Tests Performed	120,541	+4,367

REOPEN Connecticut

Guiding Principles

1

Safety First

We will reopen society safely and securely with a proactive program that safeguards the health of our vulnerable residents, continues physical distancing and provides clear safeguard rules for businesses and institutions deemed safe to reopen

2

Science Driven

Our strategy will rely on a scientifically validated set of public health interventions. Patient assessment, testing, proactive tracing, field studies, and public health guidance will be deployed simultaneously to contain infection

Guiding Principles

3

Prepared

We will work closely with hospitals and health systems to procure and distribute critical personal protective equipment and assess capacity of beds and ventilators to ensure optimal standard of care

4

Choice

Individual businesses within sectors allowed to open are empowered to make their own choice on when they reopen. When they reopen, they must comply with rules we lay out to safeguard their employees & customers

5

Dynamic

We include a suite of tools to inform an adaptive plan that can be nimbly scaled or rolled back rapidly based on real-time critical health metrics
